

# Battery Health Report

Generated: June 20, 2025 - 3:44 PM

## Battery Information

Battery ID:	B0005
Dataset:	Battery_dataset.csv
Model Used:	DeepSeek AI
Analysis Date:	June 20, 2025

## Input Parameters

Voltage:	3.7 V
Current:	2.5 A
Temperature:	25 °C
Capacity:	2.8 Ah

## Prediction Results

*This report is generated by BattSense for educational and demonstration purposes.  
Predictions are based on machine learning models and should not be used for critical decisions.*
